

Dear _____,

In order for us to help _____ find consistent success in the classroom, we will begin tracking certain behaviors. We would like to work with you to identify specific behaviors that we all feel are adversely affecting _____ either academically, socially or both. Please look over the enclosed document and highlight some behaviors you feel will be the most important to track. You will notice that we have highlighted a few that we have observed in the classroom. It is our hope that by using this tracking system we are able to quickly record and share with you challenges _____ faces throughout the day. This will also serve as a great resource for any special service providers that work with _____. In addition, we hope that in tracking these behaviors we can anticipate them, identify situations or times of the day when the behaviors typically appear, and develop strategies to deescalate. Please let me know if you have any questions.

Sincerely,
