

Roll it:

Write it:

Three horizontal lines for writing: a solid top line, a dashed middle line, and a solid bottom line.

Add the number of
feathers to the turkey!

Turkey Features Center Activity

Thank you for downloading this FREE resource at ChildCareEd! This activity can be printed out in either color or black/white. Once printed, they should be laminated so that children can write directly on them during a center. The following materials are needed:

- Turkey Feathers Center Activity (enough copies for a small center), laminated
- Feathers
- Dry erase markers
- Erasers
- Dice

Directions:

1. Children are to roll the dice and then write out the number in word form in the dotted line. Then they are to count the number of feathers and “pin” them to the turkey.
